SCENARIO 1

As a high-level coach that has supported many players represent their country - I still see many juniors with below par technical skills and understanding. Even players progressing well through the EH pathway and club setup.

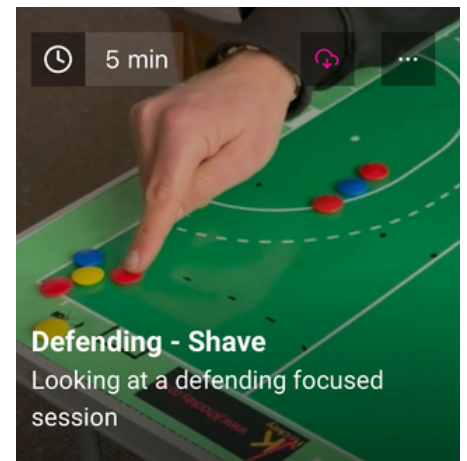

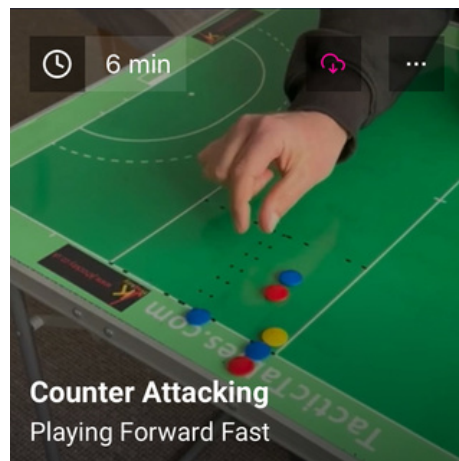

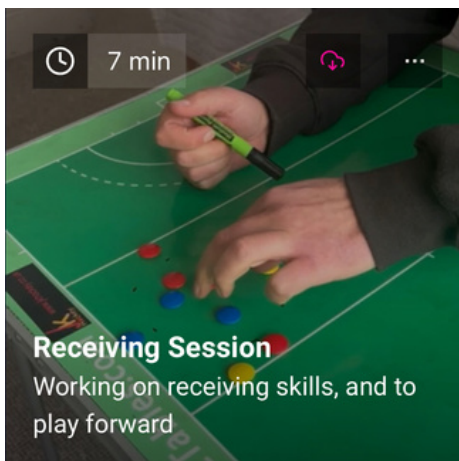

The App will provide a brilliant link for players wanting to stretch themselves and become technically proficient.

‘What good looks like’

Great Britain star Tim talks about defending in the App.

SCENARIO 2

As a coach we need insight and knowledge to help develop our players, systems and formations. Myself and other top coaches help support these areas.

James Kingstone, former National Age Group Coach and high level coach adds content weekly for us.

Fresh, weekly content into the Coaching Network.

SCENARIO 3

As a teacher/player or Coach your limited in your delivery?
Perhaps certain skills are hard to execute, and you cannot
demo or perform them.

Squeeze

Disguise

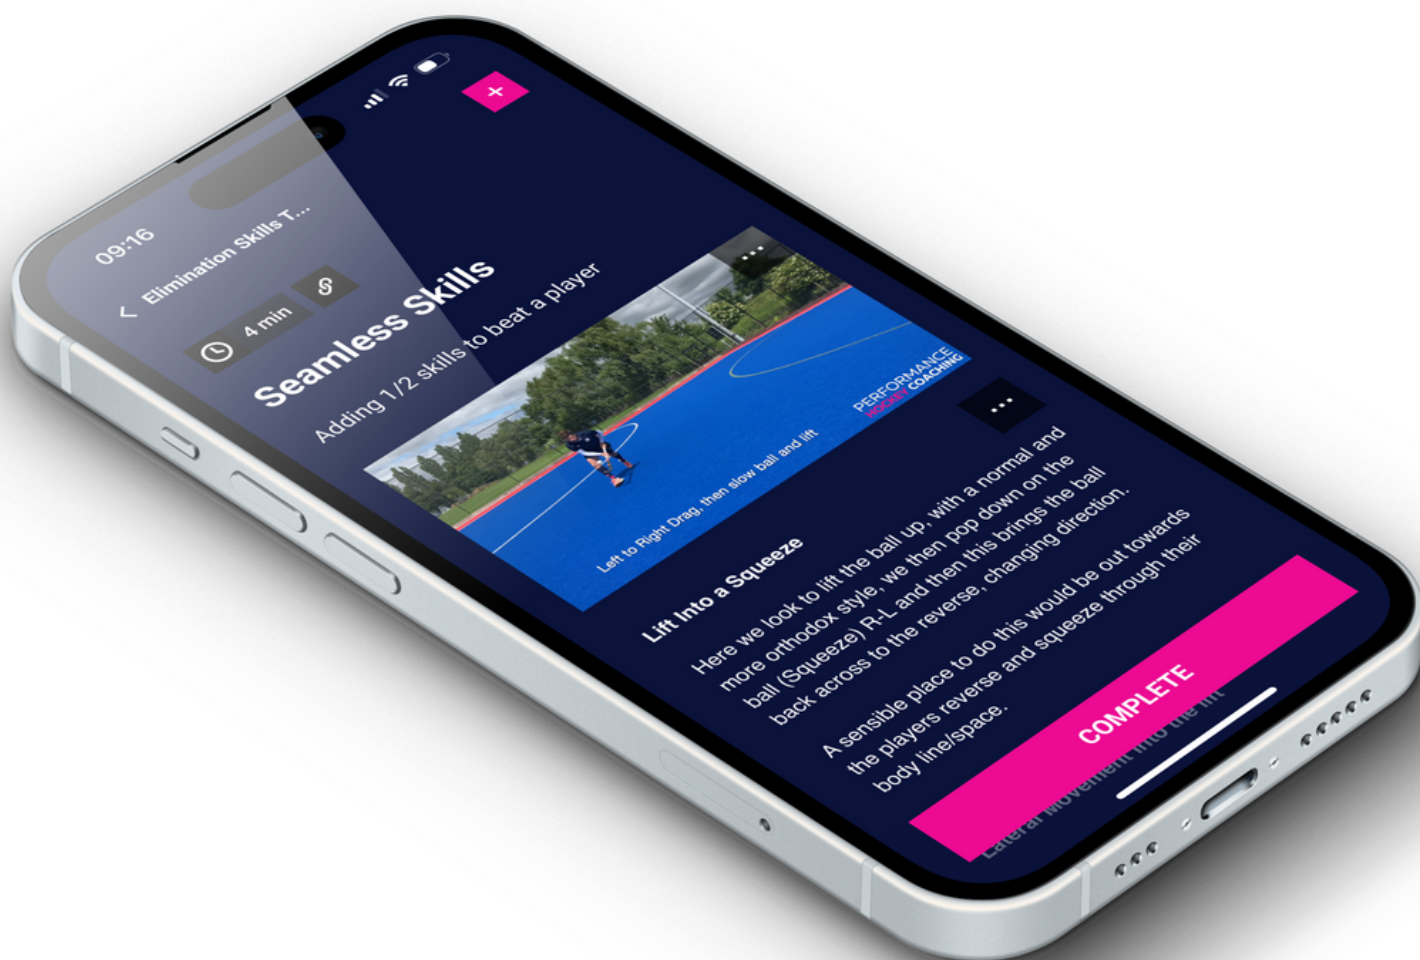

Right Foot

As an example there is well over an hour just on hitting
techniques, such is the detail, variety and considerations.

Improve your demos, and technical understanding!
