Both girls got in the car buzzing from their day – they chatted for the full 30 mins ALL the way home about what they had done, the fun they had had (both on astro and with new friends) and the skills they had learned. A simply glorious day in the autumn sun with other like minded children and inspirational motivating coaches.

*Well that was a brilliant week for Lucy!
She loved all the hockey, the up time, the down time, ate the food-
that's a plus for quite a fussy eater! Made some friends, survived living
with Emme and all the early mornings AND wants to come back!
Am sure we will see you somewhere again soon but thank you for a
great week.*

That is why we have designed a number of Specialist, Face to Face learning days that aim to support new coaches, with an introduction to hockey course, along with more advanced clinics to give experienced coaches more insight into specialist skills, formations and understanding of the game.

We Offer:

Full Day CPD programmes that cover a range of topics, from beginner to advanced.

Afternoon / Shorter Sessions to work on more focused skills, or condensed learning to work around busy teacher schedules.

Thank you for sending all of this through so quickly. The feedback from the day has been great and personally I feel that it was one of the most productive days we've had in a long time
